CAROLINA AMESTY VICTIM OF WEAPONIZATION OF COURTS LIKE TRUMP

The political campaign for State Rep District 45, Carolina Amesty vs. Leonard Spencer, has been named one of the 2 top dirtiest campaigns in the State of Florida. It's what you don't see in this game of stealing an elected office, like the **real size of an iceberg which is 80% under water. This is a real underhanded execution to strip the will of the voters and deliver a candidate into office through back door manipulation of the democratic system and character assassination.** Lets take a look at who are the players to have assassinated Carolina Amesty political career, who was elected fairly by the people of District 45.

State Rep Carolina Amesty
Endorsed by Governor Ron DeSantis

The first major player is the Orlando Sentinel. The second player is Andrew Bain, a political shell game expert of politics who is the new, by appointment, State Attorney for Orange and Osceola counties, and Leonard Spencer the candidate "selected" by corporate to run against

-----HONESTY V.S LOYALTY-----

The greatest threat to our society and political system at this time is the concept of Honesty vs. Loyalty. When we as a society accept the behavior of misinformation from our leaders, lies and creative distortion, as a solution to maintain power. Our political system, to a disturbing degree, is corrupt ethically and morally.

Carolina Amesty. This is an example of the real power of backroom politics and a couple of other people that will surprise you because they have nothing to do with District 45. The actions of several others in another county had a major effect on the District 45 race and allegedly, Disney, the 500 pound mouse in the room.

Orlando Sentinel

Former Disney executive Leonard Spencer is mounting a strong challenge

You as a voter are well aware that every media has allegiance to a political party. This allegiance is not decided by reporters or editors, TV hosts etc. The decision of what political party a media supports is the personal decision of the top Executive

or the **persons that have controlling interest in the media company. Example, Disney owns ABC news. All media political policy by ABC is influenced or decided by the top brass of Disney.**

Carolina Amesty is a Republican, very flexible on some issues and very conservative on other issues. Amesty came to the United States with her family to seek freedoms guaranteed by the Constitution of the United States. And so, she being community service minded decided to run for office locally. Little did she know the price that has to be paid to be an elected official, if you run in a coveted district, which district 45 is! Why?

HONESTY V.S LOYALTY – CONTINUED

Too many of our leaders mislead the electorate with half truths and misguide our voters to maintain political party control by supporting corrupt political behavior. This is true here locally as it is nationally when our community organizations endorse political candidates that are knowingly corrupt, so that these organizations can maintain funding and political influence.

District 45 has the distinction of being the geographic area in which Disney sits. Disney has its own political philosophy that is Democratic policy based. Amesty was elected as a Republican. And so the war began to unseat Carolina Amesty with the unwitting participation of the Governor,

One of the major players against Amesty is the Orlando Sentinel, a Democratic party supporter.

I personally do not believe that there has been any candidate so viciously attacked by any newspaper in this market as the Sentinel has attacked Carolina Amesty. Was there justification for these articles? In politics you can take an ant hill and make it sound like the cover for a nuclear missile silo. Article after article was printed about Amesty and her family. Was it justified, I say no, not in all cases and the amount of space given and position was over the top. But I am not a Democrat, I am an NPA.

How did Andrew Bain get into this mix and get the biggest case (LOL) of his career. Amesty was charged for improperly using her notary stamp and

Orlando Sentinel

But the Florida Democratic Party this week called on Amesty to resign, saying she can't properly represent her district while she's defending herself from felony charges.

HONESTY V.S LOYALTY – CONTINUED

This system cracks the very foundation of our Democracy. Who is more corrupt, the corrupt politician or the people who knowingly endorse and support them. The system is designed to discourage our youth from entering the political process. The momentum of this virus will certainly destroy our system of self governance and result in dictatorial outcomes of machine politics in elections. Yes, we are at the edge of

player not mentioned earlier, Sheriff of Osceola Marco Lopez under investigation by U.S Dept of Justice among many recently. Lopez made the "big time" by attracting the Justice Dept, as well as at least 4 other investigations. **He is shown in the photo here with Bain in a rather personal friendly format.**

Lopez charges Monique Worrell of refusing to prosecute criminals that have been charged by the Lopez Sheriff's office. Lopez needs arrest numbers for his campaign.

State Rep Prosecutor Andrew Bain and Osceola Sheriff Marco Lopez

The Governor recalls Worrell for failure to do her job. What is not mentioned is that Worrell was looking into illegal activities in the Lopez Sheriff office. The entire firing of Worrell was a scenario orchestrated by Lopez. The Governor was just a pawn that Lopez moved to do his (Lopez) bidding. It is interesting to note that Lopez is now under investigation by the U.S. Dept of Justice and his Office has been sued for civil rights violations in the shooting death of a 20 year old who committed a misdemeanor. After Worrell was fired by the Governor, Andrew Bain was appointed State Attorney by him, DeSantis. **Bain was unable to prosecute almost all the cases that Lopez said Worrell refused to prosecute. Turns out most of the cases were not pursued by Worrell because there was no evidence to prosecute, fake**

cases. In one of those cases **Lopez & his deputies arrested a women named Figueroa for possession of 10 baggies of cocaine in her car. The women was charged and arrested. The police lab later determined there were no drugs in the baggies. Sometime later the Governor used her case as a successful arrest case in a press conference as one of his success stories. Evidently Lopez never passed on the info to the Governor's office that the case was thrown out.** Bain was appointed when Worrell was fired. Worrell has filed a lawsuit against the Governor for her improper firing.

Bain now sets his target on a come back of credibility objective and is exposed to the articles in the Sentinel, or this is the most obvious way Bain's attention was directed to Amesty. Bain was registered as an NPA & hit the Governor who appointed him with an attack on his credibility as head of the Republican party by creating a case against Republican, Amesty.

Amesty was charged by Bain for misuse of her Notary responsibility. There is no question that Amesty was and is being politically assassinated by a planned strategic execution of a sequence of setups to put Leonard Spencer in the State Reps seat. Spencer, a former 15 year Disney Executive

& presently Amazon Executive leaves this high paying job to make about \$32,000. a year as a State Representative or keeps both positions and serves the corporate boss' political corporate agenda. **Make no mistake, Spencer had to get permission to run for Amesty's seat or more likely was told to do it.** The garbage being printed about Amesty is mostly fabricated as an effort to steal the 45 State Rep seat and put it in the hands of Corporate. Then Corporate could block or introduce legislation that they want supporting their theme park objectives.

You the voters must decide if you want corporate executives to run your district. Amesty deserves re-electon, she has done a great job representing District 45.
